Dear Sir

Errol Airfield Development

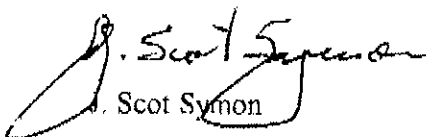

I would like to offer my support to the proposed development by Morris Leslie at Errol Airfield. I feel that there are many in the village that would also like to support him, or at least have no objections to the proposed development.

I have long been involved in village life, in particular as Chairman of the Trustees of Errol Community Association, now Errol Leisure Ltd. Morris Leslie has been a great benefactor of many village organisations and contributes monthly to the funds being accumulated for the community centre extension. Indeed, as has been publicised, he is now promising £200,000 to the funds to assist in financing the major extension being planned. With the £150,000 already received from Stewart Milne and A&J Stephen, this would see the association with the required £550,000 almost all in place. We have been trying to raise funding now for almost ten years, with the village currently desperately short of facilities, in particular for young people. This donation would therefore result in a great acceleration of the timescale for the construction of the extension.

There would obviously be a significant impact on the village if the airfield development goes ahead, but much of this would be to the benefit of the village. Local services such as the Post Office and bus services, would be much more sustainable with increased usage, and there would be a significant benefit to the village with the removal of Sunday car boot sale traffic.

I trust therefore that this proposal will receive the consideration it deserves.

Yours faithfully

J. Scot Symon
